

Dear ASP Members,

The Actuarial Society of the Philippines is delighted to support the **3rd Asia Conference on Risk-Based Capital** organised by Asia Insurance Review to be held in Manila on 29-30 March 2017.

The Head of the Insurance Commission of the Philippines, Atty. Dennis B. Funa, will be delivering the Keynote Address. Also, industry leaders from around the region will also come and share their experiences with a view to draw strategic tips and lessons. Attendees will enjoy access to these benefits:

- **Exclusive content** presented by leading experts
- **Q & A sessions** where attendees can ask the experts
- **Networking opportunities** where attendees can connect with their peers and build meaningful business connections

ASP members enjoy **special 20% off registration fee** to attend the conference. Event details as follows:

3rd Asia Conference on Risk-Based Capital

29-30 Mar 2017, The Peninsula Hotel, Manila, Philippines

Theme: "Getting Ready and Strategic About RBC"

Getting the Best in the Transition from Solvency Margin to Risk-Based Capital

With the Philippines being set to be the next in Asia to embrace RBC supervision while other markets are tinkering with or changing their RBC rules, Asia Insurance Review will host a Strategic Conference to help companies better understand the power of the RBC mantra and prepare for the new regime while learning from the experiences of those markets already using RBC.

The pace of regulatory change throughout the world is hectic. At every forum, regulatory changes are often cited by CEOs as one of the key challenges facing the industry. And regulators themselves are under pressure to keep up with the new IAIS ICPs. For companies, it is time to get real and be proactive to build the tools and capabilities to cut through this period of increasing regulatory complexity and build a solid platform that supports the successful implementation of strategy into the future. RBC is not one same meaning to all. Though many of the regulators in the region from Australia, Hong Kong, Indonesia, Japan, Korea, Malaysia, Singapore, Sri Lanka, Thailand and Taiwan have embraced RBC, the regime and requirements vary with each market.

This two-day Conference targeted at CEOs, CFOs and CROs of insurance companies as well as regulatory bodies will look at the drivers and lures of the RBC regime; how to embrace RBC painlessly, efficiently and effectively; the concepts and application of RBC for life and general insurers; as well as the categories of risks measured from credit risks, asset risks, underwriting risks, operating risks, balance sheet risks and off-balance sheet risks.

This Conference will arm delegates with the whole armoury tools and weapons to excel in your business operations by understanding and measuring the risks you assume and the capital you need to manage those risks.
